

7. VERIFICACIÓN DE CONECTIVIDAD DE RED

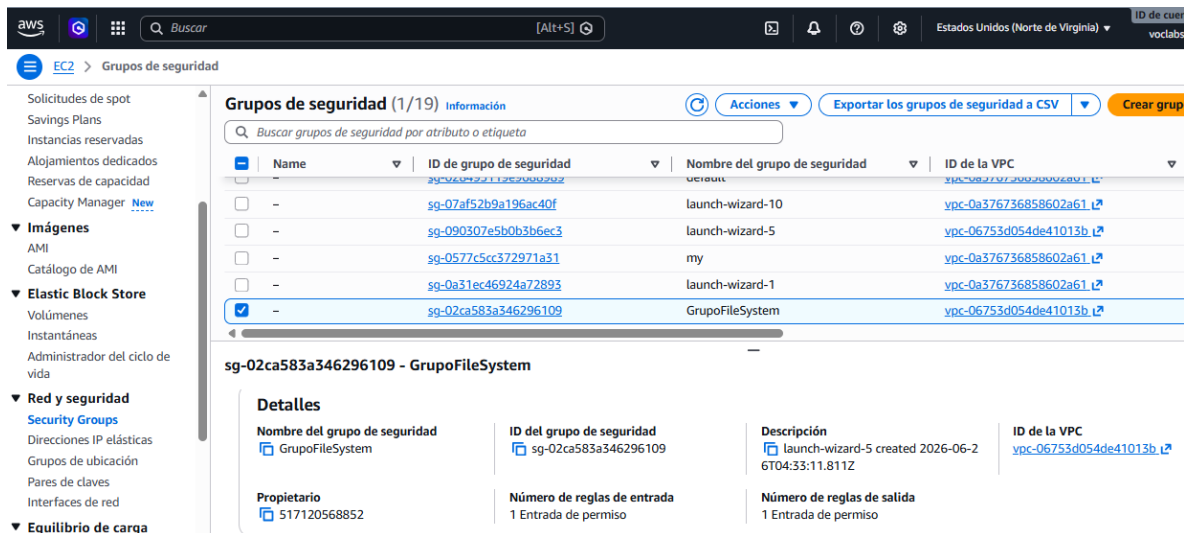

Para esta parte del Laboratorio, el objetivo es comprobar las instancias (**RÉPLICA 1 y RÉPLICA 2**) realmente se pueden comunicar entre sí dentro de la red que cree (**VPC_MORALES**).

Con estas pruebas deo en Evidencia que las instancias están bien conectadas y que la red no va a ser un problema para lo que sigue en el Laboratorio. Adjunto la captura dónde se ven las instancias **RÉPLICA 1 y RÉPLICA 2** en Ejecución.

	Name	ID de la instancia	Estado de la i...	Tipo de inst...	Comprobación de	Dirección IP...	Nombre del grupo d...	Nombre de...
☐	Instancia_Linux	i-09f2b8c07f841a2e9	En ejecución	t3.micro	3/3 comprobador	34.228.25.247	launch-wizard-2	vockey
☐		i-0ad56e6c11e85aa03	En ejecución	t2.micro	2/2 comprobador	23.22.6.19	launch-wizard-10	vockey
☒	RÉPLICA 1	i-03fc2cda95673fbaef	En ejecución	t2.micro	2/2 comprobador	54.166.47.117	GrupoFileSystem	vockey
☐		i-0bc5fde434dcaa3fb	En ejecución	t3.micro	3/3 comprobador	44.201.200.207	default	-
☒	RÉPLICA 2	i-0c3deba723973e8e7	En ejecución	t2.micro	2/2 comprobador	13.221.143.55	GrupoFileSystem	vockey

“Como Evidencia de la gestión de seguridad, se muestra la configuración del grupo de seguridad **GrupoFileSystem**, el cuál administra los accesos mediante reglas de entrada personalizadas para asegurar la comunicación en la **VPC**”.

	Name	ID de grupo de seguridad	Nombre del grupo de seguridad	ID de la VPC

sg-02ca583a346296109 - GrupoFileSystem			
Detalles			
Nombre del grupo de seguridad GrupoFileSystem	ID del grupo de seguridad sg-02ca583a346296109	Descripción launch-wizard-5 created 2026-06-2 6T04:33:11.811Z	ID de la VPC vpc-06753d054de41013b
Propietario 517120568852	Número de reglas de entrada 1 Entrada de permiso	Número de reglas de salida 1 Entrada de permiso	

Esta imagen Evidencia lo siguiente:

1.Identificación del Recurso: Muestra la correcta selección del grupo de seguridad llamado “**GrupoFileSystem**”, demostrando que es el entorno que está utilizando para controlar los permisos de red.

2.Contexto de Seguridad: Al estar abierta la pestaña “Reglas de entrada”. La imagen Evidencia documentando activamente los permisos que permiten o bloquean el tráfico hacia tus instancias.

3.Estructura del Entorno: Confirma que el grupo de seguridad está vinculado a una configuración de red (VPC) específica dentro de tu cuenta, lo cuál es fundamental para que el docente verifique que el trabajo esta organizado dentro de la red que yo misma cree.

The screenshot displays the AWS Management Console interface for the 'Groups of security' (Seguros de grupo) page. The left sidebar shows navigation options like 'Imágenes', 'Elastic Block Store', and 'Red y seguridad'. The main content area shows a list of security groups. The 'sg-02ca583a346296109' group, named 'GrupoFileSystem', is selected. Below, the 'Reglas de entrada' (Ingress rules) tab is active, showing a single rule that allows SSH access from any IP address (0.0.0.0/0) on port 22.

Name	ID de grupo de seguridad	Nombre del grupo de seguridad	ID de la VPC	Descripción

8.

EVIDENCIA: Dejo en Evidencia que no puedo editar el Grupo de Seguridad.

The screenshot shows the AWS Management Console with an error message displayed. The error states: 'You are not authorized to perform this operation. User: aws:sts::517120568852:assumed-role/voclabs/user5136947-NancyM is not authorized to perform: ec2:DescribeSecurityGroups with an explicit deny in an identity-based policy: aws:iam::517120568852:policy/voc-cancel-cred'. The error occurs when attempting to interact with the security groups.
